An Offer will be deemed to have been completed only when your offer has been received and accepted by us. Our acceptance of an offer will be evidenced by our confirmation of its terms to you and its completion.

If we have, nevertheless, already opened or closed a Position prior to becoming aware that a factor set out in paragraph 15.12 herein has not been met, we may in our discretion, either treat such a Transaction as void from the outset or close the Open Position at our then prevailing price. Such adjustment shall represent the economic equivalent of the rights and obligations of us and you immediately prior to the action.

## **31. TRADING IN CRYPTOCURRENCIES**

31.1. In case of trading in CFDs where the underlying asset is a Cryptocurrency, the Client should take in consideration that Cryptocurrencies are traded on non-regulated decentralized digital exchanges. Hence, the price formation and the price movements of the Cryptocurrencies depend solely on the internal rules of the particular digital exchange, which may be subject to change at any point in time and without notice which often leads to a very high intra-day volatility in the prices.

31.2. In case of trading CFDs in Cryptocurrencies the Client accept a significantly higher risk of loss of the invested capital which may occur within a very short time frame as a result of unanticipated adverse price movements of the Cryptocurrencies.

31.3. The Company's pricing data and market on the Cryptocurrencies are originated from the digital decentralized exchanges the Cryptocurrencies are traded on. Considering that such exchanges are not regulated, the market data and price feed information provided by such exchanges may be subject to the internal rules and practices of such exchanges which may significantly differ from the rules and practices observed by the regulated exchanges. Therefore, the pricing formation rules of the Cryptocurrency exchanges are not subject to any regulatory supervision and may be changed at the relevant digital exchange's discretion at any time. Also, such digital exchanges may introduce trading suspensions or take other actions that may result in suspension or cessation of trading on such exchanges or the price and market data feed becoming unavailable to us.

31.4. The above factors could result in material adverse effect on Clients' open positions, including the loss of all of Clients' invested capital. Where a temporary or permanent disruption to or cessation of trading occurs on any digital exchange from which we derive our price feeds for the relevant Cryptocurrency, Clients' positions in such Cryptocurrency will be priced at the last available price for the relevant Cryptocurrency, and Clients' may be unable to close or liquidate their position or withdraw any funds related to such position until the trading on the relevant digital exchange resumes (if at all). The Client accepts that where trading resumes again at either the relevant initial digital exchange or on any successor exchange thereof, there may be significant price differential (price gapping) which may impact the value of Clients' CFD positions in the relevant Cryptocurrencies and result in significant gains or losses. Where trading does not resume Clients', entire investment will potentially be lost altogether.

31.5. The Client agrees and accepts that have been informed by the Company of and understand this particular risk, and that shall take that risk into account when taking any investment decisions in respect of trading CFDs in Cryptocurrencies. In some regulated equity markets, it could be difficult to take a Short Position. For instance, if the underlying equity related Financial Instrument is in short capitalization or is illiquid, or where an Exchange or regulator have prohibited short trading. For these situations we may not be able to provide a CFD to reflect a short position at all, or Clients' may be charged an additional fee to open such a Short Position. We will advise Clients where possible of such additional fee in advance which will be based on the date, we will become aware of such short selling exclusions. In case Clients are trading CFDs in Cryptocurrencies, they fully understand and agree with the additional risks associated with such trading, as set out above.

- (b) Request correction of the personal data that we hold about you. This enables you to have any incomplete or inaccurate data we hold about you corrected, though we may need to verify the accuracy of the new data you provide to us.
- (c) Request erasure of your personal data. This enables you to ask us to delete or remove personal data where there is no good reason for us continuing to process it. You also have the right to ask us to delete or remove your personal data where you have successfully exercised your right to object to processing where we may have processed your information unlawfully or where we are required to erase your personal data to comply with local law. Note, however, that we may not always be able to comply with your request of erasure for specific legal reasons which will be notified to you, if applicable, at the time of your request.
- (d) Object to processing of your personal data where we are relying on a legitimate interest (or those of a third party) and there is something about your particular situation which makes you want to object to processing on this ground as you feel it impacts on your fundamental rights and freedoms. You also have the right to object where we are processing your personal data for direct marketing purposes. In some cases, we may demonstrate that we have compelling legitimate grounds to process your information which override your rights and freedoms.
- (e) Request restriction of processing of your personal data. This enables you to ask us to suspend the processing of your personal data in the following scenarios: (a) if you want us to establish the data's accuracy; (b) where our use of the data is unlawful but you do not want us to erase it; (c) where you need us to hold the data even if we no longer require it as you need it to establish, exercise or defend legal claims; or (d) you have objected to our use of your data but we need to verify whether we have overriding legitimate grounds to use it.
- (f) Request the transfer of your personal data to you or to a third party. We will provide to you, or a third party you have chosen, your personal data in a structured, commonly used, machine readable format. Note that this right only applies to automated information which you initially provided consent for us to use or where we used the information to perform a contract with you.

- (g) Withdraw consent at any time where we are relying on consent to process your personal data. However, this will not affect the lawfulness of any processing carried out before you withdraw your consent. If you withdraw your consent, we may not be able to provide certain products or services to you. We will advise you if this is the case at the time you withdraw your consent.

You must read and acknowledge the Privacy Policy of the Company available online.

## **Appendix – FX and CFD TRADING TERMS**

### **1. Scope**

- 1.1. This Appendix is applicable only to those Clients trading in the Financial Instruments of Contracts for Differences for all types of Underlying Assets available with the Company from time to time such as Currency Pairs (for FX Contracts), Equity Indices, base or precious Metals, Forwards, Commodities, Stocks, Shares Indices and Futures. Although the term FX / FX Contract is a type of a Contract for Difference, it is mentioned separately to mean the type of CFD where the Underlying Asset is a Currency Pair.

### **2. Opening and Closing Orders/Transactions**

- 2.1. In order to open a Transaction in an FX and CFD on the Trading Platform, you must either open a Buy or a Sell, at the price quoted by the Trading Platform at the time of such Transaction. In order to close a Transaction, you must either offer to sell (in the case of a Buy), or purchase (in the case of a Sell), the Underlying Asset covered by such open Transaction, at the price quoted by the Trading Platform at the time of such closing offer. Transactions or open positions cannot be transferred to other FX and CFD providers or their platforms. Full details of our Order Execution Policy can be found on the Website.
- 2.2. The Trading Platform will provide a Buy quote and a Sell quote for each Underlying Asset traded on the Trading Platform. You acknowledge that upon opening a Buy or closing a Sell, you may only do so at the price quoted by the Trading Platform to purchase such Underlying Asset. You further acknowledge that upon opening a Sell or closing a Buy, you may only do so at the price quoted by the Trading Platform for such Underlying Asset.
- 2.3. On the Trading Platform, you shall be entitled to make an offer to open a Transaction at the best available rate on the Trading Platform ("Market Order") at the time of opening such a Transaction, unless you specify a particular price in which to make an offer to open a Transaction ("Limit Order"). With respect to a Market Order, the price at which a Transaction is completed may not always be at the exact rate displayed when the order is submitted. You agree that your offer to open a Market Order may be accepted at a lower price or higher price than the price indicated by you in your Market Order, within a certain range as specified on the Trading Platform from time to time. If you choose to open a Market Order, your offer will be accepted at the best possible rate offered on the Trading Platform.
- 2.4. With respect to a Limit Order, the price at which a Transaction is completed may not always be at the exact rate displayed when the order is submitted. You agree that your offer to open a Limit Order may be accepted at a lower price if a buy, or higher price if a sell, than the price indicated by you in your Limit Order as specified on the Trading Platform from time to time. If you offer to open a Limit Order, your offer may be accepted at the price indicated by you in your offer. At any time prior to acceptance of a Limit Order, you may cancel the Limit Order without any further liability. If you choose to open a Limit Order, your offer will be accepted at the best possible rate offered on the Trading Platform.

- 2.5. Orders can be placed and (if allowed) changed within the Trading Hours for each type of FX and CFD appearing on the Company's Website, as amended from the Company from time to time. The Client agrees that the Orders to open a position if accepted by the Company outside the Trading Hours may not be capable of execution should the market not trade at the price stipulated once Trading Hours commence.
- 2.6. Pending Orders, not executed, shall remain effective through the next trading session (as applicable). All open spot positions will be rolled over to the next Business Day at the close of business in the relevant Underlying Market, subject to the Company's rights to close the open spot position. Any open forward positions will be rolled over at the expiry of the relevant period into the next relevant period subject to the Company's rights to close the open forward position.
- 2.7. Market Orders not executed because there is not enough volume to fill them, will not remain effective and will be cancelled.
- 2.8. Orders shall be valid in accordance with the type and time of the given Order, as specified by the Client. If the time of validity of the Order is not specified, it shall be valid for an indefinite period. However, the Company may delete one or all Pending Orders if the Trading Account Equity reaches zero.
- 2.9. Orders may be removed by the Client before they are executed.
- 2.10. Stop loss and Take Profit orders may be changed as long as they are higher in distance than a specific level (depending on the trading symbol).
- 2.11. The Client may change the expiration date of Pending Orders or delete or modify a Pending Order before it is executed. In order to change the expiry, the Client will need to cancel the Order and place a new one.
- 2.12. FX and CFD Orders on currencies are executed as follows:
- a. Take Profit (T/P) orders are executed at stated prices;
  - b. Stop Loss (S/L) orders are executed at first market prices;
  - c. Stop Loss (S/L) orders set for lock positions are executed at first market prices;
  - d. Limit orders are executed at stated prices;
  - e. Buy Stop and Sell Stop orders for position opening are executed at first market prices.
- 2.13. It is understood that Quotes on the Client Terminal are indicative Quotes and Slippage may occur. To this end the Client acknowledges and agrees that:
- a. due to market volatility and factors beyond its control, the Company cannot guarantee that an Order (including Stop Loss and Take Profit Orders) will be executed at the level specified in the Client Order. For example, an Order may be closed at a worse price than as originally specified by the Client in such an Order (i.e. Negative Slippage). In such an event, the Company will close the Transaction at the next best price.
  - b. where the price for an Underlying Asset moves to the Client's advantage (i.e. Positive Slippage), the Company can pass such price improvement on to the Client.

2.14 In the event that the Company is unable to proceed with an Order, with regard to price or size or other reason, the Company will send a re-quote to the Client (with the price it is willing to deal until the price the Client asks is available). The Order will be rejected, and the Client will need to place another Order.

2.15 The Company shall not be obliged to arrange for the execution of the Client's Orders in respect of any CFD out of normal Trading Hours which appear on the Company's Website.

2.16 The Company will delete Error Quotes (Spikes) from the Server's Quotes Base.

### **3. Stop and Limits**

- We may, in our sole discretion, allow you to specify a closing price for a Transaction through a Stop Loss and Take Profit Order, subject always to the terms of the Client Agreements and any other terms and conditions we may implement from time to time.
- Upon your offer and our acceptance of your Order, you hereby authorize us to close the Transaction at the "Stop Loss" price or "Take Profit" price, as applicable, and as agreed in the Order, without further instruction from or notification to you. We may, in our sole discretion, close the Transaction when the price quoted by us on the Trading Platform equals or exceeds the price accepted by us for such an Order. You acknowledge that we will not be required to close any Transaction if you are not in compliance with any of the factors set forth in paragraph 15.13 of this Client Agreement.
- We may, in our sole discretion, allow you to request the opening or closing of a Transaction, including a "Stop Loss" and "Take Profit" Order, within a specific time period determined by you. If we have accepted such a request, we may in our sole discretion, close the Transaction within such specific time period. You acknowledge and agree that we shall not be obliged to close such a Transaction outside such specific time period, or which does not otherwise comply with any other limitations agreed upon with respect to such Transaction.
- We may, in our sole discretion, accept an offer to place a Trailing Stop in relation to a Stop Loss Order. You acknowledge that the original price level set forth in a Stop Loss Order may be amended as the market on the Trading Platform moves in your favor. Whilst your Trailing Stop is still in effect, you agree that each change in the market by at least a Pips on the Trading Platform in your favor shall constitute a new offer by you to raise the level of your Trailing Stop by one hundredth of one percentage point. Changes in a Pip will be rounded to the nearest absolute value in your base currency based on your country of origin, as shall be specified on the Trading Platform.
- You acknowledge and agree that due to market volatility and factors beyond our control, we cannot guarantee that an Order will be executed at the level specified in your Order, for example, an Order may be closed at a worse price than as originally specified by you in such an Order. In such an event, we will close the Transaction at the next best price. For example, with respect to a Stop Loss Order, in the case of a Buy, the price of an Underlying Asset underlying such Order may suddenly decrease below the Stop Loss price, without ever reaching such price.

In the case of a Sell, the price of an Underlying Asset underlying such Order may suddenly increase above the Stop Loss price, without ever reaching such price.

- With respect to a Take Profit where the price for an Underlying Asset moves to your advantage (for example, if the price goes down as you buy or the price goes up as you sell), you agree that we can (but do not have to) pass such price improvement on to you. For example, in the case of a Buy, the price of an Underlying Asset underlying such Order may suddenly increase above the Take Profit price, without ever reaching such price. In the case of a Sell, the price of an Underlying Asset underlying such Order may suddenly decrease below the Take Profit price, without ever reaching such price.
- The Client agrees that placing a Stop Loss Order will not necessarily limit losses to the intended amounts, because market conditions may make it impossible to execute such an Order at the stipulated price and the Company bears no responsibility whatsoever.
- The Client agrees that trading operations using additional functions of the Client Trading Terminal such as Trailing Stop and/or Expert Advisor are executed completely under the Client's responsibility, as they depend directly on his trading terminal and the Company bears no responsibility whatsoever.

#### **4. Premium (or Swaps)**

- Any open Transaction held by you at the end of the trading day of the Underlying Market or over the weekend when the relevant Underlying Market is closed, shall automatically be rolled over to the next business day to avoid an automatic close. You acknowledge that when rolling such Transactions to the next Business Day, a Premium/Swap will be either added or subtracted from your Account with respect to such Transaction ("Rolling"). The Premium amount is a constant percentage of the position value and is based on a number of factors including among others, whether the Transaction is a Buy or a Sell, interest rates, Underlying Asset differentials, daily price fluctuations and other economic and market related factors. The Premium/Swap for each Underlying Asset is displayed in the "details" link for each specific Underlying Asset on the Trading Platform.
- In deciding whether to open a Transaction for a specific Underlying Asset, you acknowledge that you are aware of the Premium.
- You hereby authorize us to add or subtract the Premium/Swap to or from your Trading Account for any open Transactions that have accrued a Premium/Swap, in accordance with the applicable rate thereto, each day at the time of collection specified on the Trading Platform for each individual Underlying Asset, as applicable.

#### **5. Expiry Transactions**

- We may, in our sole and absolute discretion, set an Expiry Date and time for a specific Instrument.

- In the event we set an Expiry Date for a specific Underlying Asset, it will be displayed on the Trading Platform in the details link for each Underlying Asset. It is your responsibility to make yourself aware of the Expiry Date and time.
- If you do not close an open Transaction with respect to an Underlying Asset which has an Expiry Date, prior to such Expiry Date, the Transaction shall automatically close upon the Expiry Date. The Transaction shall close at a price which will be the last price quoted on the Trading Platform immediately prior to the applicable Expiry Date and time.

## 6. Spreads

- All FX and CFDs available with the Company have spreads which appear on the Trading Platform and/or the Website. The Company has the right to amend its spreads in its discretion from time to time. Such changes shall be effected on the Trading Platform and/or the Website and the Client is responsible to check for updates regularly.

## 7. Leverage

7.1 The Company offers to its Retail Clients, by default, leverage of 1:30 to the Major Currencies and the maximum allowable leverage levels for the rest of the instruments offered, as those are set by the applicable regulations of CySEC and ESMA or any other level as those may be amended from time to time and are made available to you on the Company's trading platform and website. Professional Clients and Eligible Counterparties are eligible for higher leverage upon their request. For more information on the leverage offered in all instruments offered by the Company please refer to our website.

7.2. Using leverage increases the loss potentials. For example, for a trading position with leverage 1:30, a favorable/adverse market movement of 0.5% will result in a 15% increase or loss respectively.

7.3 Higher leverage entails higher risks of loss. For example, for a trading position with leverage 1:50, an adverse market movement of 0.5% will result in a 25% loss while for the same trading position using leverage 1:100 the same adverse market movement of 0.5% will result in a 50% loss.

7.4 The Company has the right to change the Trading Account leverage (higher or lower) without prior notice according to the conditions described on the Website of the Company at [www.uglexchange.com](http://www.uglexchange.com).

7.5 An automatic change in Leverage pursuant to the rules established by the Company, as well as a change in Leverage made by the Client through his/her Personal Area will result in a recalculation of the Margin requirements for all of the Client's positions.

7.6 The Company has the right:

- (a) To set the leverage on the Client's trading account, 5 (five) hours before market closing before weekends and holidays. This change will affect open transactions as well as the transactions to be opened within the aforementioned time period of 5 (five) hours.

(b) To limit the level of the offered leverage and/or to increase the size of Margin requirements before macroeconomic events and/or news capable of significantly affecting the prices of financial instruments.

(c) To limit the level of the offered leverage and/or to increase the size of Margin requirements in order to comply with any necessary regulatory requirements that fall within the Company's jurisdiction or within the jurisdiction of the Client.

(d) To limit the size of the offered leverage to the default leverage of 1;30 or lower in the event that the Client fails to pass the Appropriateness Test.

7.7 The information about leverage changing is in the Personal Area. If the information on the Website contradicts to information in the Personal Area, the priority is information in the Personal Area.
